

SCRAPSTORE MATERIALS RATING SYSTEM IS AS FOLLOWS:

- 1** – NO GREAT DEMAND – Goes slowly and is not very popular, but we always try to keep a small amount in stock.
10 – DESPERATELY IN NEED! – Goes very quickly and we can never satisfy the demand.

Ratings are given for colourful things (where appropriate/relevant). Plainer or duller stuff will score slightly less!!

General Info - We are interested in any materials or items that can be used in an art, craft or play context.

1. Materials must be **clean** and **safe**.
 2. The more colourful the better, particularly with regard to paper, fabric and plastics.
 3. Strange, exotic, and unusual materials are our "GRAIL"!
 4. If the scrap is appropriate we can take large quantities (35+ pallets) and can act as a distributor to the UK network of 105 Scrapstore.
 5. If you can deliver – great! If not – we can collect.
 6. We are **unable to accept** many USED items on this list.
 7. We CAN take donations of suitable household items (particularly fabrics).
 - 8. This list is incomplete! If you've got something that's not listed here and you think it would be useful, call us.**
- New Products - Damaged, out of date, or old stock. We will consider anything appropriate that your company needs to dispose of such as Toys, clothes, stationary, books, toiletries, art materials, packaging, storage containers, etc.**

Tubing/Piping – rubber, plastic, silicone etc. 10		

General - We want bankrupt and redundant retail/wholesale stock of all sorts! Do you work for a storage, warehousing, logistics or transport company? If so, does your company ever have to pay to dispose of quantities of goods left in your storage as a result of bankruptcy (or some other reason)?

We recently had a call from a transport company who had accumulated several pallettes of goods that for one reason or another had to be disposed of. They called us and we collected:-

1 palette of gelatine pharmaceutical capsules	1 palette of new cookbooks	2 pallettes of plastic storage boxes
8 large rolls of mattress fabric	300 carved walking sticks	2 pallettes of styrene burger cartons!

Call us if you need to scrap any quantity of suitable materials. Lisa Hunt 01823 331515 or Andy Bell 01179 085644

Waste Audit Trail

Certification

The Children's Scrapstore, Bristol has been established since 1982 collecting and re-using waste. We are experienced, efficient, professional, reliable and compliant with all the necessary certification or exemptions that are essential to carry out the high level of service provided. Children's Scrapstore Taunton is the newest addition to our organisation and has been in operation since 2013.

As professionals we have all of the certifications listed below. If you would like to download the pdf, please go to the main website www.childrensscrapstore.co.uk or for a copy of the Waste Carrier License Exemption for Taunton go to www.childrensscrapstoretaunton.co.uk

Public Liability Insurance £10 million
Employers Liability Insurance £5 million
Risk Assessment for Loading and Collection
Waste Management License Exemption
Waste Carriers License Exemption
BS8555 Certification
Sustainability Policy

Children's Scrapstore and Artrageous Sustainability Policy

Bristol Children's Scrapstore and Children's Scrapstore Taunton collect safe waste from business which is re-used as a low cost creative resource by local children's groups. Artrageous is our art and craft shop and all profits from Artrageous are used to further Scrapstore's charitable objectives. The Scrapstore identifies sustainable development as development "which meets *the needs of the present without compromising the ability of future generations to meet their own needs*"¹. Sustainability is a process of ensuring the wise use of all resources within a framework in which environmental, social and economic factors are integrated. The Scrapstore is committed to placing sustainability at the heart of its work. While our most significant environmental impact, making waste things play things, is a positive one, we recognise that our own day-to-day practices can have an adverse effect on the environment. Our sustainability policy is to minimise our negative environmental impacts.

Principles - The Policy is based upon commitment to the following principles:

- minimising the use of natural resources and preventing pollution
- integrating environmental and sustainable principles into the organisation's operational procedures and promoting best practice at every level
- complying with, and where appropriate exceeding, applicable legal and other requirements relevant to our operations
- continually improving our environmental performance wherever practicable
- communicating the Scrapstore's commitment to sustainable development across the organisation and beyond.

Objectives - General

1. Operate in a socially and ethically responsible manner.
2. Build partnerships with local community and national organisations to progress environmental principles.
3. Communicate and report progress, internally and externally.
4. Use all suitable opportunities to influence our partners, suppliers and sub-contractors to improve their own environmental performance.
5. Avoid the unnecessary use of environmentally damaging substances and processes.

Legislative compliance

6. Achieve and if possible over-achieve the requirements of all relevant legislation. Energy, water and waste management
7. Minimise waste generation and facilitate repair, reuse and recycling over disposal of wastes.
8. Identify and implement cost effective energy & water conservation measures.
9. Maximise energy efficiency, use of renewable resources and use of low carbon technology.

Education and awareness - 1 Bruntland Report (1987)

10. Increase awareness of environmental responsibilities amongst staff, tenants and visitors, encourage good housekeeping measures and provide training where necessary.

Transport

11. Encourage modes of transport, which minimise environmental impact and examine the operation of Scrapstore vehicles.

Noise

12. Actively seek to maintain all noise within national guidelines & to reduce levels, as far as is practical, to a minimum.

Purchasing

13. Consider the social, ethical and environmental aspects of products and services, as far as is practical, when making purchasing decisions.

Built environment

14. Introduce sustainable construction principles to all new build and refurbishment projects.

15. Maintain and enhance biodiversity.

Targets

a) To reduce carbon dioxide emissions per square meter by at least 10% below 2007 levels by 2015.

b) To reduce water consumption per square meter by at least 10% below 2007 levels by 2015.

c) To reduce waste going to landfill by 20% below 2007 levels by 2015.

Implementation

Children's Scrapstore and Children's Scrapstore Taunton are committed to implementing this policy through an annual action plan. This plan is developed by the CEO, in association with staff and the management committee. The action plan includes objectives, targets, responsibilities, and monitoring and review arrangements.

Monitoring and review

This sustainability policy and associated action plan will be monitored and reviewed annually by the management committee. A sustainability report demonstrating progress will be published online annually.
